Wonders of the ancient world that still standing. Little is known of Cheops, you`ll also see the inscrutable and mysterious **Sphinx**, known in Arabic as Abu al-Hol ("the Father of Terror") and carved almost entirely from one piece of limestone.

- After lunch, continue to **Memphis**. Founded around 3,100 BC, is the legendary city of Menes, the King who united Upper and Lower Egypt. Early on, Memphis was more likely a fortress from which Menes controlled the land and water routes between Upper Egypt and the Delta. Having probably originated in Upper Egypt, from Memphis he could control the conquered people of Lower Egypt. However, by the Third Dynasty, the building at Saqqara suggests that Memphis had become a sizable city.
- Proceed to **Sakkara site**, Sakkara is one section of the great necropolis of Memphis, the Old Kingdom capital and the kings of the 1st Dynasty as well as that of the 2nd Dynasty. are mostly buried in this section of the Memphis necropolis. It has been of constant interest to Egyptologists. Three major discoveries have recently been made at Sakkara, including a prime minister tomb, a queens pyramid, and the tomb of the son of a dynasty-founding king. Each discovery has a fascinating story, with many adventures for the archaeologists as they revealed the secrets of the past.
- **Meals: Breakfast, Lunch**

DAY 7: Thu - Nov 11, 2021 - Cairo, City Tour

- Start your day with a guided tour of the **Egyptian Museum** you`ll stroll through the halls highlighting each historical period of this ancient land, Marvel at the glittering treasures of King Tutankhamen, unparalleled in their variety, exquisite beauty, and sheer weight in gold. Seeing this treasure of more than 1,700 fabulous items buried with a young and relatively unimportant king, who can even imagine what the tombs of great and long-lived pharaohs must have contained? **You will enter the Royal Mummies room** and view the "sleeping" Kings of ancient Egypt.
- After **lunch at local restaurant**, drive to the **Citadel of Mohamed Ali**, also known as the Fortress of Salah al-Din al-Ayyubi), built in 1183 and overlooking the city from the Muqattam Hills. The structure, with its domes and minarets, looks over a number of important buildings, including the Alabaster Mosque. Its domed interior, used by Moslems for daily prayers, is a spectacular sight of twinkling lights and beautiful mosaics.
- Proceed to **Old Cairo** explore some of the early religious monuments of the city. You`ll visit the **El Muallaqa Church**, dating to the late fourth and early fifth century. This basilica was named for its location on top of the south gate of the Fortress of Babylon. Muallaqa means "suspended or hanging." Destroyed in a ninth-century earthquake, the church became the center of the Coptic (or Christian) Church of Egypt from the time it was rebuilt in the eleventh century until the 14th century. Make a stop at the **Ben Ezra Synagogue**, built sometime between the sixth and ninth centuries AD. The temple contains a Jewish Heritage Library, containing documents found here in 1896 that describe the economic and social conditions of Jews under Arab rule as well as descriptions of relations between various Jewish sects.
- End the day with a walking tour of the largest 13th century covered oriental market, the largest traditional shopping bazaar in the world, the **Khan el-Khalili Bazaar**. In the tiny alleyways, there are hundreds of shops where you can watch gold and coppersmiths, brass makers, and fortunetellers at work. long, 3215 feet thick at the base and 364 feet tall. Today it provides irrigation and electricity for the whole of Egypt and, together with the old Aswan Dam built by the British between 1898 and 1902, 6km down river, wonderful views for visitors. From the top of the two Mile long High Dam you can gaze across Lake Nassar, the huge reservoir created when it was built, to Kalabsha temple in the south and the huge power station to the north.

- Our last visit today will be to the **Temple of Philae**, was dismantled and reassembled (on Agilika Island about 550 meters from its original home on Philae Island) in the wake of the High Dam. The temple, dedicated to the goddess Isis, is in a beautiful setting which has been landscaped to match its original site. It's various shrines and sanctuaries, which include The Vestibule of Nectanebos I which is used as the entrance to the island, the Temple of the Emperor Hadrian, a Temple of Hathor, Trajan's Kiosk (Pharaohs Bed), a birth house and two pylons celebrate all the deities involved in the Isis and Osiris myth. The Victorian world fell in love with the romance of the Temple. But at night you May choose our optional tour ([Sound & Light Show in Aswan - A14](#)) at Philae Temple, a magical experience. Overnight in Aswan.
- **Meals: Breakfast, Lunch, Dinner**

DAY 9: Sat - Nov 13, 2021 - Aswan, Kom Ombo, Edfu

- Early Sail to Kom Ombo and visit **Kom Ombo Temple** (the Ptolemaic Temple of Sobek & Haroeries). Located in the town of Kom-Ombo, about 28 miles north of Aswan, the Temple, dating to the Ptolemies, is built on a high dune overlooking the Nile. The actual temple was started by Ptolemy VI Philometor in the early second century BC. Ptolemy XIII built the outer and inner hypostyle halls. The outer enclosure wall and part of the court were built by Augustus sometime after 30 BC, and are mostly gone. There are also tombs from the Old Kingdom in the vicinity of Kom-Ombo village. Sail to Edfu for dinner and overnight.
- **Meals: Breakfast, Lunch, Dinner**

DAY 10: Sun - Nov 14, 2021 - Edfu, Luxor, East Bank Tour

- **Visit Edfu Temple.** Dedicated to Horus, the falcon headed god, it was built during the reigns of six Ptolemies. We have a great deal of information about its construction from reliefs on outer areas. It was begun in 237 BC by Ptolemy III Euergetes I and was finished in 57 BC. Most of the work continued throughout this period with a brief interlude of 20 years while there was unrest during the period of Ptolemy IV and Ptolemy V Epiphanes. This is not only the best preserved ancient temple in Egypt, but the second largest after Karnak. It was believed that the temple was built on the site of the great battle between Horus and Seth. Hence, the current temple was but the last in a long series of temples build on this location.
- Back to the cruise for lunch, Sail to Luxor via Esna. Afternoon proceed to your East bank visit of Luxor, visit **Karnak Temple.** In ancient Egypt, the power of the god Amun of Thebes gradually increased during the early New Kingdom, and after the short persecution led by Akhenaten, it rose to its apex. In the reign of Ramesses III, more than two thirds of the property owned by the temples belonged to Amun, evidenced by the stupendous buildings at Karnak. Although badly ruined, no site in Egypt is more impressive than Karnak. It is the largest temple complex ever built by man, and represents the combined achievement of many generations of ancient builders. The Temple of Karnak is actually three main temples, smaller enclosed temples, and several outer temples located about three kilometers north of Luxor, Egypt situated on 100 ha (247 acres) of land. Karnak is actually the sites modern name. Its ancient name was Ipet-isut, meaning "The Most Select (or Sacred) of Places". This vast complex was built and enlarged over a thirteen hundred year period. The three main temples of Mut, Montu and Amun are enclosed by enormous brick walls.
- Continue to visit the **Temple of Luxor**, built by the two pharaohs, Amenhotep III and Ramses II. Ancient Thebes was a center of festivals, and the Temple of Luxor was the setting for the most important-the festival of Opet, designed to merge the ruler's human and divine aspects. The temple was dedicated to Amun-Ra, whose marriage to Mut was celebrated annually, when the sacred procession moved by boat from Karnak to Luxor Temple.

DAY 11: Mon – Nov 15, 2021 – Luxor West Bank, Red Sea

- After breakfast, check out from your Nile Cruise, visit the West Bank necropolis including the **Valley of the Kings**, with its many tombs chiseled deep into the Cliffside. From the 18th to the 20th Dynasty, the Memphis area and pyramid-style tombs were abandoned in favor of the West Bank of the Nile in Thebes. Several great leaders as well as many less important rulers are buried here, and more tombs are being discovered even today. This is where Howard Carter discovered the treasures of Tutankhamen and was struck “dumb with amazement” when he beheld its “wonderful things” in 1922.
- Proceed to the **funerary temple of Queen Hatshepsut at Deir El Bahari**. The mortuary temple of Queen Hatshepsut is one of the most dramatically situated in the world. The queen’s architect, Senenmut, designed it and set it at the head of a valley overshadowed by the Peak of the Thebes, the “Lover of Silence,” where lived the goddess who presided over the necropolis. Last stop for our morning tour will be at the Colossi of Memnon. Amenhotep III (18th Dynasty) built a mortuary temple in Thebes that was guarded by two gigantic statues on the outer gates. All that remains now are the 23 meters (75 ft) high, one thousand-ton statues of Amenhotep III. Though damaged by nature and ancient tourists, the statues are still impressive.
- Transfer to Red Sea by private air-conditioned car, arrival and check inn at your hotel.
