Early morning transfer to Cairo airport, for your flight to Aswan.

Upon arrival you will be escorted to your luxury cruise ship where you will spend the next 3 nights / 4 days relaxing and enjoy the sailing from Aswan to Luxor. After Lunch, the Nile cruise shore excursion will start. Visit the High Dam, located near Aswan, the world-famous High Dam was an engineering miracle when it was built in the 1960s. It contains 18 times the material used in the Great Pyramid of Cheops. The Dam is 11,811 feet long, 3215 feet thick at the base and 364 feet tall. Today it provides irrigation and electricity for the whole of Egypt and, together with the old Aswan Dam built by the British between 1898 and 1902, 6km down river, wonderful views for visitors. From the top of the two-Mile-long High Dam you can gaze across Lake Nassar, the huge reservoir created when it was built.

Our last visit today will be to the Temple of Philae, was dismantled and reassembled (on Agilika Island about 550 meters from its original home on Philae Island) in the wake of the High Dam. The temple, dedicated to the goddess Isis, is in a beautiful setting which has been landscaped to match its original site. It's various shrines and sanctuaries, which include The Vestibule of Nectanebos I which is used as the entrance to the island, the Temple of the Emperor Hadrian, a Temple of Hathor, Trajan's Kiosk (Pharaohs Bed), a birth house and two pylons celebrate all the deities involved in the Isis and Osiris myth. The Victorian world fell in love with the romance of the Temple. Overnight in Aswan.

Meals: Breakfast, Lunch, Dinner

DAY 6: Sat - July 19, 2025 - Aswan, Kom Ombo, Edfu, Luxor

Early Sail to Kom Ombo and visit Kom Ombo Temple (the Ptolemaic Temple of Sobek & Haroeries). Located in the town of Kom-Ombo, about 28 miles north of Aswan, the Temple, dating to the Ptolemies, is built on a high dune overlooking the Nile. The actual temple was started by Ptolemy VI Philometor in the early second century BC. Ptolemy XIII built the outer and inner hypostyle halls. The outer enclosure wall and part of the court were built by Augustus sometime after 30 BC and are mostly gone. There are also tombs from the Old Kingdom in the vicinity of Kom-Ombo village.

Sail to Edfu to Visit Edfu Temple. Dedicated to Horus, the falcon headed god, it was built during the reigns of six Ptolemies. We have a great deal of information about its construction from reliefs on outer areas. It was begun in 237 BC by Ptolemy III Euergetes I and was finished in 57 BC. Most of the work continued throughout this period with a brief interlude of 20 years while there was unrest during the period of Ptolemy IV and Ptolemy V Epiphanes. This is not only the best-preserved ancient temple in Egypt, but the second largest after Karnak. It was believed that the temple was built on the site of the great battle between Horus and Seth. Hence, the current temple was but the last in a long series of temples build on this location.

After that Sail to Luxor via Esna for dinner and overnight.

Meals: Breakfast, Lunch, Dinner

DAY 7: Sun - July 20, 2025 - Luxor, East Bank Tour

After breakfast, visit Karnak Temple, in ancient Egypt, the power of the god Amun of Thebes gradually increased during the early New Kingdom, and after the short persecution led by Akhenaten, it rose to its apex. In the reign of Ramesses III, more than two thirds of the property owned by the temples belonged to Amun, evidenced by the stupendous buildings at Karnak. Although badly ruined, no site in Egypt is more impressive than Karnak. It is the largest temple complex ever built by man and represents the combined achievement of many generations of ancient builders. The Temple of Karnak is three main temples, smaller enclosed temples, and several outer temples located about three kilometers north of Luxor, Egypt situated on 100 ha (247 acres) of land. Karnak is the sites modern name. Its ancient name was Ipet-isut, meaning "The Most Select (or Sacred) of Places". This vast complex was built and enlarged over a thirteen-hundred-year period. The three main temples of Mut, Montu and Amun are enclosed by enormous brick walls.

Proceed to visit the Temple of Luxor, built by the two pharaohs, Amenhotep III and Ramses II. Ancient Thebes was a center of festivals, and the Temple of Luxor was the setting for the most important-the festival of Opet, designed to merge the ruler`s human and divine aspects. The temple was dedicated to Amun-Ra, whose marriage to Mut was celebrated annually, when the sacred procession moved by boat from Karnak to Luxor Temple.

Back to the cruise for lunch.

Overnight in Luxor.

Meals: Breakfast, Lunch, Dinner

DAY 8: Mon - July 21, 2025 - (Optional Hot Air Balloon Ride), West Bank, Cairo

(Optional Hot Air Balloon Ride in Luxor). As the sun rises over Luxor, so can you, aboard an optional hot-air balloon ride. The sights, sounds, and sheer spectacle of seeing these antiquities from the sky will surely make for a morning you will remember forever.

After breakfast, Check out from our Nile Cruise and visit the West Bank necropolis including the Valley of the Kings, with its many tombs chiseled deep into the Cliffside. From the 18th to the 20th Dynasty, the Memphis area and pyramid-style tombs were abandoned in favor of the West Bank of the Nile in Thebes. Several great leaders as well as many less important rulers are buried here, and more tombs are being discovered even today. This is where Howard Carter discovered the treasures of Tutankhamen and was struck "dumb with amazement" when he beheld its "wonderful things" in 1922.

Proceed to the funerary temple of Queen Hatshepsut at Deir El Bahari. The mortuary temple of Queen Hatshepsut is one of the most dramatically situated in the world. The queen`s architect, Senenmut, designed it and set it at the head of a valley overshadowed by the Peak of the Thebes, the "Lover of Silence," where lived the goddess who presided over the necropolis. Last stop for our morning tour will be at the Colossi of Memnon. Amenhotep III (18th Dynasty) built a mortuary temple in Thebes that was guarded by two gigantic statues on the outer gates. All that remains now are the 23 meters (75 ft.) high, one thousand-ton statues of Amenhotep III. Though damaged by nature and ancient tourists, the statues are still impressive.
